Official media release of Swiss Fistball and the Tournament Widnau from 12.04.2019:

Tournament Widnau to be shortened in favour of the World Championships

The organisers of the Tournament Widnau will not be holding the final matches of their traditional tournament on the opening day of the World Championships. As an exception, the tournament will end on Saturday evening.

On 11 August, the biggest fistball world championship in history will start. The first World Cup matches will take place in Winterthur on Sunday and the opening ceremony is also part of the day. Traditionally, however, on the second weekend in August, the Grenzlandturnier will also be held in Widnau, which is one of the most important fistball tournaments in the world.

This collision of dates had been known for some time and the responsible persons of the two major events had therefore agreed that the Tournament Widnau would play its final matches on Sunday morning and that the first World Cup matches as well as the opening ceremony would take place from 4 pm. So the fistball community would have had enough time to travel from Widnau to Winterthur.

World Championships have priority

Thanks to the pleasingly large number of 18 World Cup participants, however, it is now not possible to start the World Cup games only at 4 pm. The World Cup scheduled first matches will be played in the morning - parallel to the Tournament Widnau. The organisers of the Tournament Widnau have therefore decided, in consultation with Swiss Fistball and the World Cup Organising Committee in Winterthur, not to play any more matches on Sunday. The Tournament Widnau will end for once on Saturday evening.
